International Conference On Emerging Trend and Issues in Management June 1-2, 2017 Kathmandu, Nepal

Organized by:

Central Department of Management

Tribhuvan University

Kirtipur, Kathmandu

Nepal

ABOUT THE CETRAL DEPARTMENT OF MANAGEMENT (CDM), T.U.

Central Department of Management (CDM) is a pioneer institution in Nepal devoted to offering Master's and Ph.D. programs in management. Quality, content, and process of management education are basically determined by an approach of continuous innovation and adaptation to the rapidly changing scenario of the world.

Central Department of Management was established with the aim of providing quality education to prepare middle and higher level professionals, capable of exploiting opportunities and confronting the challenges of the business world. It has long history of 40 years equipping its students successfully with critical management skills for professional pursuits in business and public sector. Moreover, its academic level standards have been set high in order to offer opportunity to students to acquire an ample base of technical skills required to become a researcher, consultant and academician in the field of business management.

In the last four decades, CDM has emerged as a widely-recognized center of excellence in management education and research. It has produced thousands of competent scholars to match with the actual requirement and needs of the nation. A large number of its alumni with entrepreneurial talents have set up their own enterprises generating employment opportunities for others. The Department is proud with the fact that the CDM alumnae are now in key positions in national and international institutions. CDM is proud to have a community of knowledgeable, dedicated, and motivated professors with long history of experience in teaching, learning, consulting and research.

ABOUT THE CONFERENCE

The business world of the 21st century is characterized by keen competition and dynamic changes.

Understanding the nature of global trend has never been of paramount significance. Business organizations across the world are grappling with the changing business environment and they have realized that executing an existing strategy does no longer suffice. Rapid changes in every sphere of business and management are rule rather than exception. New ideas, trend, technologies and methods are innovated for addressing new issues that the business world is facing in the context of globalized and digitized market scenario. In order to chart a roadmap to success, new strategies are to be identified to address new challenges and opportunities presented by evolving trend.

In the face of continuous evolving situations, business leaders need to keep their organizational strategies updated to ensure that their organizations continue to look ahead, and use strategies to improve overall performance. Organizations will also need to keep their human resource skills up-to-date and capitalize the potential benefits of emerging trends keeping in mind the inherent risks.

The present international conference “**Emerging Trend and Issues in Management**” aims at focusing on the current trends and issues that will help shape the future of business and economy. Interaction and exchange of ideas through this conference will certainly contribute to share the knowledge which is extremely essential in the present context. It would create a platform for dissemination of business intelligence & novel ideas among academicians, entrepreneurs, practitioners, and the concerned stakeholders.
